*Left-Click on the piece or card will trigger this command when valid (unless disabled). Combat Markers and game counters also work via “drag and drop”, where applicable. To mark the first Attacker of a turn, Left-Click a second time on an Ordered piece or place a Target marker first.

§Combat hotkey‡; it is not necessary to select the piece. Hits & Restore hotkeys; target your own side (or target-marked side for Solitaire). For more, see the Combat Accelerators drop down menu.

†Automatic with use of the “Square” hand button and play of Battalion Mass counter or “Hasty Square”.

‡Control (^) hotkeys also respond to Command (⌘) on MacOS or the equivalent meta key on other platforms.
